

Reference	Title
US 7,097,973	Method for monitoring molecular species within a medium
US 7,115,229	Apparatus and method for monitoring molecular species within a medium
US 6,975,944	Method and apparatus for monitoring materials used in electronics
US 6,495,341	Method and apparatus for monitoring a physical or chemical conversion of a grain material
US 6,290,838	Apparatus and method for characterizing liquids
FR 9702668	Appareil et procédé de caractérisation de liquides
US 6, 496,742	Classifying apparatus designed in particular for odor recognition
EUR 98942826.3	Classifying apparatus designed in particular for odor recognition (DE,GB,FR)
US 6,496,813	Classifying apparatus using a combination of statistical methods and neuronal networks, designed in particular for odour recognition
EUR 48942827.1	Classifying apparatus using a combination of statistical methods and neuronal networks, designed in particular for odour recognition (DE, GB, FR)
FR 9801897	
FR 9311291	Procédé et appareil de détection des substances odorantes
EUR 94927694.3	Methods and devices for the detection of odorous substances and applications (SE, DE,GB, FR)
US 5,801,297	Methods and devices for the detection of odorous substances and applications
US 5,918,257	Methods and devices for the detection of odorous substances and applications
US 7,167,815	Measuring the intensity of odors
EUR 04290478.9	Measuring the intensity of odors
